Shielded Power Inductors – XFL3010

- AEC-Q200 Grade 1 (−40°C to +125°C)
- High current, magnetically shielded power inductors
- Only 1 mm high with a 3 mm × 3 mm footprint

Designer’s Kit C440 contains 5 of each XFL3010 and XFL3012 value

- Core material Composite
- Environmental RoHS compliant, halogen free
- Terminations RoHS compliant tin-silver-copper (96.5/3/0.5) over tin over nickel over silver-platinum. Other terminations available at additional cost.
- Weight 44 mg
- Operating voltage 0 – 40 V
- Ambient temperature −40°C to +125°C with (40°C rise) 1rms current.
- Maximum part temperature +165°C (ambient + temp rise). Derating.
- Storage temperature Component: −55°C to +165°C.
- Tape and reel packaging: −55°C to +80°C

Resistance to soldering heat Max three 40 second reflo ws at
+260°C, parts cooled to room temperature between cycles

Moisture Sensitivity Level (MSL) 1 (unlimited floor life at <30°C / 85% relative humidity)

Packaging 2000/7” reel; 7500/13” reel Plastic tape: 8 mm wide, 0.23 mm thick, 4 mm pocket spacing, 1.14 mm pocket depth

PCB washing Tested to MIL-STD-202 Method 215 plus an additional aqueous wash. See Doc787_PCB_Washing.pdf.

Typical L vs Frequency

Dash number Indicates start lead. Connect high dv/dt here for lowest EMI.

0.043 max* 1.1
0.039 1.0
0.030 ±0.008 0.77 ±0.20
0.106 ±0.008 2.69 ±0.20
0.114 2.90
0.118 ±0.008 3.0 ±0.2
0.080 2.03

Recommended Land Pattern

- For optional tin-lead and tin-silver-copper terminations, dimensions are for the mounted part.
- Dimensions before mounting can be an additional 0.005 inch / 0.13 mm.

Dimensions are in inches

*0.050 1.26
*0.039 1.0
*0.030 0.77
*0.106 2.69
*0.114 2.90
*0.118 3.0
*0.080 2.03

Parts manufactured prior to June 2018 may be marked differently.

1. When ordering, please specify **termination** and **packaging** codes:

   - **XFL3010-224MEC**
     - **Termination:** E = RoHS compliant tin-silver-copper (96.5/3/0.5) over tin over nickel over silver-platinum. Special order: S = non-RoHS tin-lead (63/37).
     - **Packaging:** C = 7” machine-ready reel. EIA-481 embossed plastic tape (2000 parts per full reel). Quantities less than full reel available: in tape (not machine ready) or with leader and trailer ($25 charge).
     - **B** = Less than full reel. In an effort to simplify our part numbering system, Coilcraft is eliminating the need for multiple packaging codes. When ordering, simply change the last letter of your part number from B to C.
     - **D** = 13” machine-ready reel. EIA-481 embossed plastic tape. Factory order only, not stocked (7500 parts per full reel).

2. Inductance tested at 1 MHz, 0.1 Vrms, 0 Adc.
3. DCR measured on a micro-ohmmeter.
4. SRF measured using Agilent/HP 4395A or equivalent.
5. DC current at 25°C that causes the specified inductance drop from its value without current. Click for temperature derating information.
6. Current that causes the specified temperature rise from 25°C ambient. This information is for reference only and does not represent absolute maximum ratings. Click for temperature derating information.
7. Electrical specifications at 25°C. Refer to Doc 362 “Soldering Surface Mount Components” before soldering.
