### Flyback Transformers

For Texas Instruments

**LM5072 High Power PD**

- Designed for 25 Watt PoE application
- Input range from 18 to 57 V
- Primary to secondary isolation: 1500 Vrms
- Auxiliary winding output: 11 V, 20 mA

**Core material**: Ferrite

**Terminations**: RoHS compliant tin-silver over tin over nickel over phosphor bronze. Other terminations available at additional cost.

**Weight**: 13.6 – 13.9 g

**Ambient temperature**: –40°C to +125°C

**Storage temperature**: Component: –40°C to +125°C.

**Resistance to soldering heat**: Max three 40 second reflows at +260°C, parts cooled to room temperature between cycles

**Moisture Sensitivity Level (MSL)**: 1 (unlimited floor life at <30°C / 85% relative humidity)

**Packaging**: 175 per 13” reel; Plastic tape: 44 mm wide, 0.4 mm thick, 32 mm pocket spacing, 11.9 mm pocket depth

**PCB washing**: Tested to MIL-STD-202 Method 215 plus an additional aqueous wash. See [Doc787_PCB_Washing.pdf](#).

1. When ordering, please specify a **packaging** code:

**FA2898-ALD**

**Packaging**: D = 13” machine ready reel. EIA-481 embossed plastic tape (175 per full reel). Quantities less than full reel available: in tape (not machine ready) or with leader and trailer ($25 charge).

B = Less than full reel. In an effort to simplify our part numbering system, Coilcraft is eliminating the need for multiple packaging codes. When ordering, simply change the last letter of your part number from B to D.

2. Inductance is for the primary, measured at 250 kHz, 0.7 Vrms, 0 Adc.

3. Ipk is the peak current drawn at minimum input voltage.

4. DCR for the primary and the secondary is with windings connected in parallel.

5. Leakage inductance measured on the primary windings with all secondary pins shorted.

6. Turns ratios are with the primary windings and the secondary windings connected in parallel.

7. Output is with the secondary windings connected in parallel.

- Electrical specifications at 25°C.

Refer to Doc 362 “Soldering Surface Mount Components” before soldering.

- **Core material**: Ferrite

- **Terminations**: RoHS compliant tin-silver over tin over nickel over phosphor bronze. Other terminations available at additional cost.

- **Weight**: 13.6 – 13.9 g
