1. When ordering, specify a packaging code:

    TA7788-ALD

    Packaging: D = 13” machine ready reel. EIA-481 embossed plastic tape. Quantities less than full reel available: in tape (not machine ready) or with leader and trailer ($25 charge).
    B = Less than full reel. In an effort to simplify our part numbering system, Coilcraft is eliminating the need for multiple packaging codes. When ordering, simply change the last letter of your part number from B to D.

2. Inductance is for the primary, measured on an Agilent/HP 4284 at 250 kHz, 0.1 VRms, 0.1 Adc.
3. Leakage inductance measured between pins 2 and 3 at 250 kHz, 0.1 VRms, 0.1 Adc with all secondary pins shorted.
4. DC current that causes an inductance drop of 30% (typ) from its value without current.
5. Output of Sec1 is 15 V, 0.13 A. Output of Sec2 is 9 V, 0.13 A.
6. Electrical specifications at 25°C.

Refer to Doc 362 “Soldering Surface Mount Components” before soldering.
