Flyback Transformer for TI LM5071 & LM5072 PD Controllers

- Dual-output flyback transformer for Power over Ethernet
- Operates in continuous mode at 250 kHz with 14 – 60 V input
- 2000 Vrms isolation from primary and auxiliary to secondaries

Core material: Ferrite
Terminations: RoHS compliant tin-silver over tin over nickel over phosphor bronze. Other terminations available at additional cost.
Weight: 6.35 g
Ambient temperature: -40°C to +85°C
Storage temperature: Component: -40°C to +85°C. Tape and reel packaging: -40°C to +80°C
Resistance to soldering heat: Max three 40 second reflows at +260°C, parts cooled to room temperature between cycles
Moisture Sensitivity Level (MSL): 1 (unlimited floor life at <30°C / 85% relative humidity)
Packaging: 175 per 13” reel. Plastic tape: 32 mm wide, 0.5 mm thick, 28 mm pocket spacing, 12.93 mm pocket depth

1. When ordering, please specify packaging code:

Packaging:
D = 13” machine-ready reel. EIA-481 embossed plastic tape (175 parts per full reel). Quantities less than full reel available: in tape (not machine ready) or with leader and trailer ($25 charge).
B = Less than full reel. In an effort to simplify our part numbering system, Coilcraft is eliminating the need for multiple packaging codes. When ordering, simply change the last letter of your part number from B to D.

2. Inductance is for the primary, measured at 250 kHz, 0.2 Vrms, 0 Adc.
3. Ipk is peak primary current drawn at minimum input voltage.
4. Leakage inductance is for the primary winding with all other pins shorted.
5. Electrical specifications at 25°C.
