Flyback Transformers

For MPS MP8007 Flyback Reference Design

- Designed for Monolithic Power Systems MP8007 Flyback Reference Design for IEEE802.3af compliant PoE applications.
- Operates in continuous conduction mode with 36 – 57 V input.
- 1500 Vrms, 5 mA, one minute isolation (hipot) between primary and auxiliary to secondary.

Core material  Ferrite
Terminations  RoHS tin-silver-copper over tin over nickel over phos bronze.
Weight  6.0 – 6.2 g
Ambient temperature  −40°C to +85°C
Max part temperature  +125°C (ambient + temp rise)
Storage temperature  Component: −40°C to +125°C
Tape and reel packaging: −40°C to +80°C
Resistance to soldering heat  Max three 40 second reflo ws at +260°C, parts cooled to room temperature between cycles
Moisture Sensitivity Level (MSL)  1 (unlimited floor life at <30°C / 85% relative humidity)
Packaging  175 per 13″ reel Plastic tape: 32 mm wide, 0.6 mm thick, 28 mm pocket spacing, 12.93 mm pocket depth
PCB washing  Tested to MIL-STD-202 Method 215 plus an additional aqueous wash. See Doc787_PCB_Washing.pdf.

### Inductance

1. When ordering, please specify packaging code:

   **CX9629-ALD**

   **Packaging:**
   - D = 13″ machine-ready reel. EIA-481 embossed plastic tape (175 parts per full reel). Quantities less than full reel available: in tape (not machine ready) or with leader and trailer ($25 charge).
   - B = Less than full reel. In an effort to simplify our part numbering system, Coilcraft is eliminating the need for multiple packaging codes. When ordering, simply change the last letter of your part number from B to D.

2. Inductance is for the primary, measured at 100 kHz, 0.1 Vrms, 0 Adc.
3. DCR for the secondary is with both windings connected in parallel.
4. Leakage inductance measured between pins 1 and 3 with all other pins shorted.
5. Turns ratio is with the secondary windings connected in parallel.
6. Peak primary current drawn at minimum input voltage.
7. Output is with the secondary windings connected in parallel.
8. Auxiliary winding 6.8 V, 0.02 A.
9. Electrical specifications at 25°C.

Refer to Doc 362 “Soldering Surface Mount Components” before soldering.
