1. When ordering, please specify packaging code:
   - **HA3905-CLD**
     - **Packaging:** D = 13″ machine-ready reel. EIA-481 embossed plastic tape (175 parts per full reel).
     - B = Less than full reel. In tape, but not machine ready.
     - To have a leader and trailer added ($25 charge), use code letter D instead.

2. Inductance is for the primary, measured at 250 kHz, 0.1 Vrms, 0 Adc.
3. Ipkr is peak primary current drawn at minimum input voltage.
4. Leakage inductance measured on the primary winding with all secondary pins shorted.
5. Output of the secondary is with the windings connected in parallel.
6. Electrical specifications at 25°C.

Refer to Doc 362 “Soldering Surface Mount Components” before soldering.

**Recommended Land Pattern**

Secondary windings to be connected in parallel on the PC board.
